

# Nerios Lamaj

## FRONTEND ENGINEER

Ever Since I became fascinated with the power of technology, I've devoted my time to intertwining man and machine through interactive interfaces, design and new technologies of the web. I foster productivity in a collaborative environment that meets the requirements of engineers and creatives at the same time. I can work on anything related to web apps, but if I had to choose I'd rather focus on frontend technologies.

## WORKING EXPERIENCE

### **Zava, London UK — Frontend Engineer** (Full Time)

JUN 2019 — Present

Managing a healthcare CMS with PHP backend and Vue frontend. Also supporting the development of multiple landing pages, running AB tests and handling the implementation of 3rd party platforms. Meanwhile I was part of a cross functional team which developed, maintained and implemented a white labelled Vue.js Design System on multiple platforms. Also running team building sessions like training, retrospectives, various ad hoc investigations and also being on-call engineer during and after work hours.

### **Thortful, London UK — Frontend Developer** (Full Time)

MAR 2018 — JUN 2019

Being in charge of maintaining two projects in AngularJS, the main e-commerce website and an internal CRM system. Main tasks include designing frontend architecture, developing new features, bugfixing, component development, testing, version control and handling simple DevOps tasks in Jenkins. Re-developed the whole basket flow from scratch plus new Apple Pay feature and also migrated the old products grid view into an "Infinite Scroll DOM Recycle".

### **London MET and Lloyds Bank, London UK — JS Developer** (Research)

FEB 2018 — SEP 2018

Working as a researcher and Javascript developer in a small agile team for London Metropolitan University, in a project that was funded and supervised by Lloyds Bank and Innovate UK. My main role was to develop an Alexa Skill in NodeJS for Voice Banking and investigate the best Domain Driven Design for every case scenario that was covered by the application. Main technologies include Lambda, DynamoDB, Terraform, 2FA and Alexa Kit.

### **Tirana Center of Tech, Tirana AL — Frontend Instructor** (Contract)

NOV 2017 — JAN 2018

For more than 2 months I have been training a group of current students and aspiring employees to uplift their career in Web Development industry. The technologies that I instructed included beginner to intermediate level of HTML, CSS, Responsive Websites, Javascript, AngularJS and simple git tasks.

### **New Moment, Tirana AL — Digital Manager** (Full Time)

DEC 2016 — JUL 2017

Managing digital projects, websites, research and digital campaigns for ALBtelecom, Jagermeister, Toyota and many other clients. Managed to individually build a NodeJS & AngularJS Facebook data scraping/analysis app.

### **IMB, Tirana AL — Web Designer & Developer** (Contract)

DEC 2013 — DEC 2015

Designing and developing UI elements for the biggest Albanian financial web-app (AlphaWEB) and some large scale projects. Implemented white labels for our partners and designed and developed the main company's website. Drastically improved my front end skills like AngularJS, HTML, CSS and JS. Implementing white labels for our partners

### **nerios.dev, Remote — Designer & Developer** (Freelance)

APR 2013 — NOV 2017

Working on short term projects in web design and development for various startups, entrepreneurs, businesses and institutions from the region, Europe and the US, including Municipality of Tirana, UNDP, Ogilvy Albania and British Council.

## ACADEMIC BACKGROUND

### **London Metropolitan University, Faculty of Computing Science**

FEB 2018 — MAY 2019

M.Sc Computing and Information Systems

### **Polytechnic University of Tirana, Faculty of Information Technology**

OCT 2013 — SEP 2016

B.Sc. of Electronics Engineering

### **Harry Fultz Institute, Professional High School** (Studied in English)

SEP 2009 — JUL 2013
