Nerios Lamaj

FRONT END DEVELOPER

Ever Since I became fascinated with the power of technology, I've devoted my time to intertwining man and machine through interactive interfaces, design and new technologies of the web. With my knowledge in both development and design I foster productivity in a collaborative environment that meets the requirements of creatives and developers at the same time.

WORKING EXPERIENCE

Thortful Ltd., London UK — Front End Developer
March 2018 — Present
Being in charge of maintaining two projects in AngularJS, the main e-commerce website and an internal CMS/CRM system. Main tasks include designing frontend architechture, developing new features, bugfixing, component development, testing and version control.

London MET and **Lloyds Bank,** London UK — JS Developer (Research Project)
February 2018 — September 2018
Working as a researcher and Javascript developer in a small agile team for London Metropolitan University, in a project that was funded, supported and supervised by Lloyds Bank and Innovate UK. The goal was to research safe ways of implementing e-banking applications in voice driven devices such as Alexa. My main role was to develop an Alexa Skill in NodeJS, securely deploy and maintain it in AWS and research the best User Experiences for every case scenario that was covered by the application.

Tirana Center of Technology, Tirana AL — Front End Instructor (Part Time)
November 2017 — January 2018
2 months of intensive training for a small group of students. The technologies that I instructed included beginner to intermediate level of HTML, CSS, Bootstrap, Responsive Design, Javascript, AngularJS and git.

SuperCop Pro, Remote — UI Designer & UI Developer (Project Based)
June 2017 — December 2017
SuperCop Pro plugin is a one-stop solution to purchasing limited goods from Supreme New York. I was in charge of designing UI and develop the FrontEnd (HTML/CSS/JS) of the SuperCop Chrome Extension.

New Moment, Tirana AL — Digital Manager (Full Time - Worked in English)
December 2016 — July 2017
Managing digital projects, websites, research and digital campaigns for ALBtelecom, Jagermeister, Toyota and many other clients. Managed to individually build a NodeJS & AngularJS Facebook data scraping/analysis app.

IMB, Tirana AL — Designer & Front End Developer (Full Time)
December 2013 — December2015
Designing UI and developing the FrontEnd for the biggest Albanian financial web-app (AlphaWEB) and some large scale governmental projects. Drastically improved my front-end skills (HTML/CSS/JS).

Freelancer, Remote — Full Stack Web Designer (Project Based)
April 2013 — Jan 2018
Working for various startups, entrepreneurs, businesses and institutions from Albania, Europe and the US.

ACADEMIC BACKGROUND

London Metropolitan University — School of Computing Science
January 2018 — June 2019
